What does **inclusion** in the workplace mean to **Dhruv**?

Inclusion in the workplace means creating a **respectful** and **supportive** environment for all employees, regardless of their background or identity

It involves providing relevant support to employees based on their **individual needs** and strengths, and offering opportunities for career **growth** and development based on **skill and competence**

In a truly inclusive workplace, **diversity is celebrated** and leveraged as a source of strength and innovation, and every employee feels **valued** and **empowered** to contribute their **unique perspectives** and talents
